12.1	Features	23
12.2	Installation	23
12.3	Contribute	23
12.4	Support	24
12.5	License	24

GETTING STARTED

In the Creator's Bridge, observe a queue of actors that will become part of your life stream show.

- Click on 'Cast' to hire an actor.
- Click on 'Reject' to reject an actor.

USING THE ON AIR FEATURE

The On Air page displays four camera feeds into the game world. Each feed tracks an actor with a main role.

- Press '1, 2, 3, 4' to toggle camera feed one to four respectively into the 4x4 Mode.

THE 4X4 MODE

- In this view mode, important events are signaled with a ‘!’ icon that appears on the feed.

WHAT ARE ROLES?

Each actor has a role. The roles are determined by the selected scenario. For now, the product only has 'All Night At The Lake With You' as a scenario, which according to our data was one of the most frequently watched human-generated shows around life and death counting by unique data points (views).

How are roles activated during the stream? As machines, a role's subroutines are automatically programmed by the software, so you do not have to do anything other than communicating further instructions to them via the User Interface (UI).

THE USER INTERFACE

At the bottom of the screen, you will find a hotbar with buttons on it. All of these buttons are also accessible through the navigation menu at the top right of the screen.

Preload Scene

- **This button does the same as “setup scene” in the navigation menu.**
 - **Upon clicking it, you may spend donation credits to spawn various extra actors to the streaming show.**

- * Predators

- * Zombies

- * Items

Destroy All

- This button clears the virtual stream’s world of any extra actors generated through preload scene or other add buttons.

Gift Item

- This allows you to gift an item to any of the main actors currently alive. Gifts can increase the likelihood of a main actor’s survival.

THE ROLES IN THE SCRIPT

The script is about a *vampire Singer* named Aksel Oriana, a *grave digger Clown* named Evelin Gregor, a *farmer Writer* named Rosalva Nisha and a *Media Producer and Slayer* named Laius gildo who are busy surviving a foreign land bordered by nothingness and a Martian parasite that turns inactive biological organisms into food-seeking predator organisms also known as ‘zombie’ in Common Human Language (CHL). In other words, the story is about eccentric people fighting off hordes of zombies and philosophizing about life and death.

There are four main actors in this script:

AKSEL ORIANA

Setup

- Aksel Oriana, from the 'All Night At The Lake With You' by Hans Grier (2021).
 - From source data, Aksel is a male vampire aged 370 years old. He is only active at night (in-game stream time).

Role

- Aksel's role is to prey on other actors in the stream and he will also periodically feed on the artificially generated human NPCs at various waypoints that contain human NPCs.
 - Aksel will only prey on other actors if you, ***the Host***, decided on a target, or if,
 - An actor's health is sufficiently low (this is detected by the actor playing Aksel and activates the necessary subroutines).

EVELIN GREGOR

Setup

- Evelin Gregor, from the 'All Night At The Lake With You' by Hans Grier (2021).
 - From source data, Evelin is a female grave digger aged 25 years old.

Role

- Evelin dig graves for human and actor corpses and cleans up areas of predator corpses or blood.
- If corpses are left unattended for too long, they become new zombies

LAIUS GILDO

Setup

- Laius Gildo, from the 'All Night At The Lake With You' by Hans Grier (2021).
 - From source data, Laius is a male hunter (called a slayer) aged 14 years old.
 - Despite being young and facing prejudice for it, Laius is physically precocious and has the physical constitution of a middle-aged man. However, his mental faculties remain around his natural age.

Role

- Laius Gildo will seek and destroy predators in any quadrants.
 - He needs 'food' to replenish himself and to continue carrying his role
 - Laius's role is the only one capable of killing the main actor playing Aksel Oriana, the vampire role archetype.

ROSALVA NISHA

Setup

- Rosalva Nisha, from the 'All Night At The Lake With You' by Hans Grier (2021).
 - From source data, Laius is a female farmer and a treasure hunter, aged 47 years old.

Role

- Rosalva's role is to collect comestible produce (both from Laius' slayings and wilderness produce) to increase some waypoints' human population. This role is critical to feed both Aksel Oriana and Laius Gildo indirectly.

SCRIPT 00-31-49-74

'All Night At The Lake With You' by Hans Grier and GPT-J 6B (2021). Retrieved electronically on August 12th, 2520, 14:35:09 EST.

ABEL'S LAKE. EXT. EVENING

Aksel Oriana: A lake is beautiful and quiet - but it is not tranquil. It is a water-body that is the abode of life. You see it has all three qualities of an abode. It has peace, plenty, and activity. When you look at the surface of a lake you see an endless chain of waves and ripples, or a smooth surface, and so you think that the surface of a lake is tranquil. However, when you walk through a lake, you will soon come across a spot of great activity - some people swimming, others fish feeding, and then you may hear the cries of various birds. A lake has three qualities: peace, plenty, and activity. Now let us ask you a question. What is the first quality of a lake?

Evelin Gregor: It doesn't have a vampire monologue-ing around it. Or *in* it.

Laius Gildo: A lake indicates live and show time.

Rosalva Nisha: I'm so glad we're finally getting to know each other better.

Evelin Gregor: Here we go.

Aksel Oriana: I guess I'd better have another drink. Of blood. You lot know that I am a creature of the night. A *vampire*, as humans, like to call it, but it is really an evolution of a parasite and a virus together.

Rosalva Nisha: I better go. There are people to feed. Good-bye.

Laius Gildo: Don't let me catch you, Aksel.

Evelin Gregor: Absolutely. I do need to dig some graves soon.

ENNUCH'S FOREST EXT. EVENING

Evelin Gregor: What is life's worth? Naught but decay and a putrid stench in the end.

Evelin Gregor: I can't fathom why I'm still alive, digging graves for people I do not know.

DESERTED CITY EXT. EVENING

Laius Gildo: What should I hunt next? I think snakes are overrated. They are pretty easy to step on.

Laius Gildo: But it takes a master to survive the encounter.

TUNDRA EXT. EVENING

Rosalva Nisha: There isn't shit in the snow.

Rosalva Nisha: I better find a better location for gold, food or anything worth it.

DESERTED CITY EXT. EVENING

Laius Gildo: I think I am going to go for a bear.

Laius Gildo: I love bears!

Laius Gildo: They are so cute and cuddly!

Laius Gildo: I just want to hug them and hug...

Laius Gildo: Oh wait! That way lies death.

Laius Gildo: I'll just admire them from a distance.

Laius Gildo: I think I saw one near the river.

Laius Gildo: I'll go check it out.

LIFESTREAM STUDIO 2521

Congratulations on being a new owner of Lifestream Studio 2521: Professional Edition.

Ever wondered what a human thinks about death? At the Foundation, we offer products that address the issue. We believe all boundaries are meant to be broken.

The year is 2521, and you are now an active part of the Stream.

12.1 Features

- Recruit machine actors as content in your stream
- Earn donation credits and refine your actors or your script
- Add dynamic life-or-death content to your channel
- Setup your scene as you want during streaming
- Generate symbiotic understanding about death and experience it from your own hands, from the perspective of your actors

12.2 Installation

Install Lifestream Studio by running:

```
install lifestream studio
```

when prompted to at the first screen.

12.3 Contribute

- Issues: <https://github.com/SylvainTran/V00717/issues>
- Source Code: <https://github.com/SylvainTran/V00717>

12.4 Support

If you are having issues, please let us know. We have a mailing list located at: evacorporation.heroku.com

12.5 License

The project is licensed under the MAIN-DIRECTIVES license.
